Peer Navigation engagements

189
SUD treatment referrals

121
overdose reversals reported

835
referrals to other services

488
new participants

COCHISE HARM REDUCTION
2024 IMPACT REPORT

Letter from the Executive Director

This year, I'm incredibly proud of our team's work to support our community. In the spring, we launched our own meals-on-wheels program with the American Legion Bisbee, delivering over 11,000 nutritious meals along our Outreach routes. In the summer, we hosted our third International Overdose Awareness Day—this time in Bisbee—with 90+ attendees, live music, and a vigil honoring lives lost. In the fall, we opened the Old Bisbee Resource Center, bringing brick-and-mortar Peer Support Services to Bisbee for the first time. None of this would be possible without our amazing community, partners, and funders. Thank you for your unwavering support!

Lu Funk, Executive Director & Founder of CHR

Quotes from Our Community

"One of the best outreach programs I've seen in this county in the last 20 years."

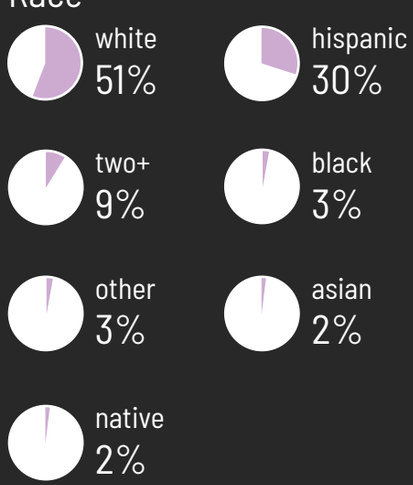

"Thanks to CHR, lives are impacted positively that would otherwise be forgotten."

"I believe Cochise Harm Reduction should be available in every city. thank you for all you do!"

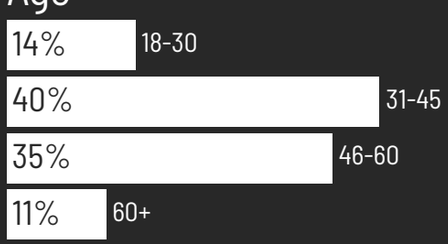

PIT Survey Data

CHR worked with the CDC-Foundation and Cochise County Health & Social Services to implement a Point-in-Time(PIT) Survey of CHR's Outreach Program participants. CHR is now working with the Arizona Department of Health Services to analyze and synthesize this data and will use it to inform our 5 year strategic plan. The ultimate goal of this project was to elevate the voices and experiences of those most impacted by overdose and drug policy in our community.

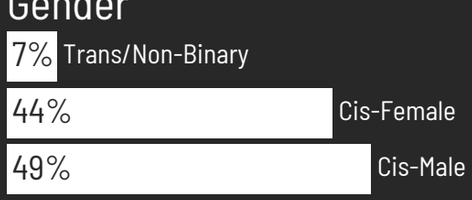

Race

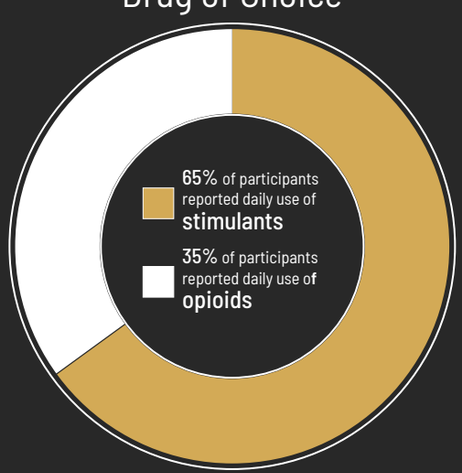

Age

Gender

Drug of Choice

72% participants were homeless in the last year

82% participants were food insecure in the last year
